

MAN DOOR ACCESSORIES

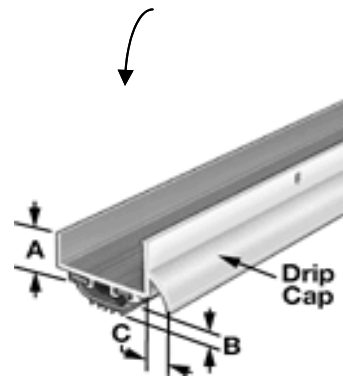

Threshold Plate

Aluminum thresholds have a dull finish; All have mounting holes and are furnished with screws. They are UL classified for use with wood fire doors rated for 90 minutes and metal fire doors rated for 3 hours (unless noted). To Order: Please specify length: 3, 4, or 6 ft. where applicable.

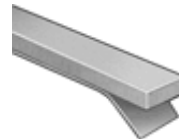

Door Sweep

Has an arched, flexible vinyl insert that creates a tight seal. The flange has slotted mounting holes so you can adjust for doors that have been cut too short. A drip cap keeps dust, rain, and slush away from the bottom of the door. For use on outside doors.

Weather Striping

This foamed version of the polyvinyl chloride (PVC) rubber. Material is closed cell, which means that each cell is completely closed, restricting water, air, and gas from passing through
